Public Lab: Spring Fling!

Propeller, 4035 Washington Ave
9:00 am – 5:00 pm

The Gulf Coast Public Lab Chapter is celebrating spring in a big way. At the Spring Fling we’ll work with DIY environmental monitoring tools, host workshops, activities, food and fun! The event will be hosted in a style similar to an unconference. This means the event will be flexible and dynamic, with lots of learning and sharing.

Sessions during Spring Fling include:
- An aerial mapping trip
- 3D Printing
- Water quality exploration
- Open discussion topics such as Environmental Justice in Louisiana and Environmental Story Telling!
